JAN 2 1957

TO: All Area Branches

SUBJECT: Coordination of the International Communist Movement:  
Deterioration and Remedial Measures

1. In the attachment we are forwarding two briefs on subject. The first brief, classified SECRET/NORFORN, is for the use of desks and field stations. The second, classified SECRET, is for use as exchange material. The field is requested to forward comments, criticism, or additional information of its own or from liaison services. We believe the subject matter to be of sufficient interest to warrant a special field collection effort.

2. Note that the version restricted to station use contains more specific and sensitive data than does the exchange material. Stations should treat this information with utmost care.
